

About the Mesquite Symphony Orchestra

The MSO is a community orchestra created to serve Mesquite and the surrounding area. The players perform because they love to play and not because of a received salary. The tradition of our European neighbors is for such an ensemble to exist in virtually every town, city or village. These ensembles are sources of great pride for the community and are supported by that community. The Mesquite Symphony Orchestra is unique from most of the other Orchestras in the area in that it utilizes volunteer musicians. That makes it very special. We can be very proud of the fact that many fine musicians from the North Texas area have chosen to join and perform with our Symphony.

We value your presence and we encourage you to let us know how you enjoyed the concert. Your presence at this concert makes a valuable contribution to the growth of orchestral music and we will commit to you that we will continue to support the advancement of orchestral music for the Community of Mesquite.

From the Mesquite Symphony Orchestra Association

We appreciate your support of the Arts in Mesquite and are happy to have you in the audience at this event. We encourage any who are not members of the MSOA to consider joining us.

The Mesquite Symphony Orchestra Association would like to thank the many businesses that have supported us through their advertising. We hope you will take every opportunity to trade with them in appreciation to them for their support. We also thank the Rotogravure participants for their very generous and continued support for the 2004-2005 concert season. We look forward to many more great seasons with the Mesquite Symphony Orchestra.
